REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance:

The primary reason for the indication of allowable subject matter in claims 1-14 is the inclusion of the limitations of a cartridge that has a chamber to hold a recording material used for printing therein and is mounted on a printing apparatus, the cartridge including a sensor substitute module that substitutes for a sensor, which is not mounted on said cartridge, a condition receiving module that receives an external specification of a detection condition for the sensor, a control module that activates and controls said sensor substitute module based on the specific detection condition and an output module that outputs a signal that substitutes for a result of detection and is provided by said sensor substitute module. It is these limitations found in the claims, as they are claimed in the combination of, that have not been found, taught or suggested by the prior art of record which makes these claims allowable over the prior art.

The primary reason for the indication of allowable subject matter in claim 15 is the inclusion of the limitations of a printing apparatus with a cartridge mounted thereon, said cartridge having chamber that holds a recording material used for printing therein, the cartridge including a sensor substitute module that substitutes for a sensor, which is not mounted on said cartridge, a condition receiving module that receives an external specification of a detection condition for the sensor, a control module that activates and controls said sensor substitute module based on the specific detection condition and an output module that outputs a signal that substitutes for a result of detection and is provided by said sensor substitute module. It is these limitations found in the claim, as

claimed in the combination of, that have not been found, taught or suggested by the prior art of record which makes this claim allowable over the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
